Fábio Pimenta

RESUME

Software developer with 15+ years of experience

A developer for over 15 years, more than six of them on Magento 2 e-commerce, maintaining stores and developing modules. Today my focus is architecture: I design the system and build it with AI agents, including in stacks that are new to me, such as Rust and Go, with tests and verification to prove it works. I built my own pipeline that runs in Claude Code, Anthropic's CLI, through commands, skills and agents, and takes an idea to verified code; this site was made with it.

EXPERIENCE

2022 – present

Desenvolvedor Magento Backend

Infobase IT

2020 – 2022

Desenvolvedor Magento Backend

Híbrido

2018 – 2020

Desenvolvedor

Elitesoft

EDUCATION

2025 – in progress

MBA em Engenharia de Software com IA

Favculdade Full Cycle

2024 – 2025

MBA em Engenharia de Software

Faculdade Full Cycle

2018 — 2019

Pós graduação em Dispositivos Móveis

Unifil

2015 — 2017

Análise e Desenvolvimento de Sistemas

Universidade Norte do Paraná

SKILLS

PHP · Magento 2 · n98-magerun

JavaScript · TypeScript · Node.js

Docker · Docker Compose · Linux

MySQL · MariaDB · Redis · Elasticsearch · RabbitMQ

AI agents · MCP · Claude Code · Local LLMs

LANGUAGES

Portuguese · native
